What is National Senior Health & Fitness Day®?

National Senior Health & Fitness Day is an annual health and wellness event for older adults. Our 31st annual event is set for Wednesday, May 29, 2024. More than 100,000 older adults will participate in these local health events across the country.

The goals of National Senior Health & Fitness Day are to promote the importance of regular physical activity, and to show what local organizations are doing to improve the health of older adults in their communities.

What Will Older Adults Do During the Event?

Local organizations throughout the country will host senior-related health and fitness events at retirement communities, Ys/health clubs, senior centers, park districts, hospitals, houses of worship, local aging groups, and other community locations. The local health and fitness activities will vary widely based on the organization hosting the event and the interests of the local seniors they work with. Activities will be non-competitive and may include walking events, low-impact exercises, health screenings and health information workshops.

How Can My Organization Participate in National Senior Health & Fitness Day Events?

Local groups interested in hosting a National Senior Health & Fitness Day event must register in order to legally use the event name and logo, which are federal trademarks. Once you register, your organization is legally entitled to use the event name and logo, and you have access to the special program website with all of the materials and resources you need to host a successful event.
